

Suggestion for Better Traffic Flow (School Dismissal)

Dear Parents,
To facilitate traffic flow during school dismissal without inconveniencing residents, we suggest the following traffic flow plan:

1. Enter carpark only at blk 507B
2. Exit carpark only at blk 501B
3. This creates a one-way traffic flow by our parents
4. Wait along only one side of the access road closer to blk 501C, 501D and 507D
5. Avoid waiting at the fire engine hard stand. This will allow for two-way traffic for residents & other visitors who are not aware of this informal traffic arrangement

Thank you for your cooperation.
